

## Anti Fracture Decoupling Mat SF

Parameter	Specification
Roll Width	1m
Material Composition	Polyethylene Membrane With Fleece Backing
Thickness	3mm
Weight	0.65kg/m <sup>2</sup>
Waterproof Performance	>= 5m Water Column
Crack Bridging Capability	>= 5mm Lateral Movement
Temperature Range	-30 C to +90 C
Compressive Strength	>= 5 t/m <sup>2</sup>
Vapour Resistance (Sd value)	>= 75m
Chemical Resistance	Resistant To Alkalis, Acids, Salts
Substrate Preparation	Ensure Substrate Is Load-Bearing, Dry, Clean & Free From Dust, Grease Or Laitance
Application	Product Should Be Fixed With Flexible Tile Adhesive
Shelf Life	Unlimited In Proper Dry Storage
Warranty	Lifetime - Provided Product Is Installed In Accordance With Instructions & Industry Standards
